

**YOUR
EXPERT
RESOURCE
PARTNER**

Dave and his team provided an exceptional suite of documentation providing assurance to the management team that the delivered service would be significantly controlled from a quality assurance perspective and adhere to the highest UK standards.

John Collins, Large Aircraft Maintenance Manager

The professional approach and service provided by Qualiteq were exemplary and we have no hesitation in recommending them.

Bernie Morrison, CEO of PanGeo Subsea

Having witnessed the professionalism and attention to detail provided by Qualiteq we would not hesitate in recommending them.

John Rae, IMG Composites Operations Manager

A BESPOKE, PERSONAL SERVICE TAILORED TO YOU...

We are experts

Qualiteq are experts in Quality, Health & Safety, Environmental and Management Services with decades of experience in delivering and supporting management systems in sectors such as oil & gas, aerospace and construction.

We are flexible

We can support you with anything from supplier audits through to the planning and implementation of a complete management system. We can work ad hoc, under support contract or with our people embedded in your organisation.

...AN EXPERIENCED & FLEXIBLE TEAM...

Who we are

Our Managing Director Dave Hutchinson has been working with Quality and Health & Safety systems for over 30 years. He formed Qualiteq in 2012 to fulfil a need to provide high quality management systems on a flexible basis, tailored to each client's needs.

Qualiteq employ only the very best people who are highly qualified, have real world experience and have been trained to work closely with our clients. Our team understand the importance of confidentiality and the trust granted to us by our clients.

What we do

We provide management systems advice and ongoing support in:

- Quality
- Health & Safety
- Environmental
- Management Services

We have experience in designing and implementing management systems which will fully integrate into your business and meet UKAS certification requirements in ISO 9001, ISO 14001 and BS OHSAS 18001 (soon to become ISO 45001).

We provide ongoing support to clients that have management systems in place including internal audits, management system reviews and the management of certification body surveillance audits.
